State Project Priority Lists are expected to include projects planned for EPA funding thru September 1977. Lists from some States may include a lesser number of projects. Information on the various aspects of the projects would be available only thru the respective State Water Pollution Control Agency or the EPA Regional Office, if the State has completed its processing of the application.

The "State Project Priority List" should be used in conjunction with the "WWT Data Base" since the making of an award on a project contained on this list is reflected in the monthly issue of the "WWT Data Base"; because of this and the necessity of issuing addendums to purchasers of the initial priority list, the list will not be sold alone.

STATE PROJECT PRIORITY LIST

This list contains wastewater construction projects by priority as assigned by the States. Each entry includes project number, applicant name, grant amount to be requested of EPA, grant step and priority number.

WASTEWATER TREATMENT CONSTRUCTION DATA BASE

Awards for the wastewater treatment facilities construction grants under Public Law 92-500 made during a particular month are listed in a monthly publication entitled "Waste Water Treatment Construction Data Base - Public Law 92-500 Project Record." This publication is prepared by the Grants Administration Division and distributed and sold by the National Technical Information Services.

The March 1974 issue (PB231300) provides a base listing of all grants awarded under Public Law 92-500. Beginning with the April 1974 issue (PB231300-01) the listings contain awards for one month only. Microfiche (24X) of each copy is also available. The subscription price is $100.00 annually. Previous issues can be purchased at $10.00 a copy.

These publications are available for examination at the Grants Office and Library of EPA Headquarters and each Regional Office.

PREFACE

This "Awards Listing" consists of two volumes. Volume I lists all grants awards except State and local assistance which includes Wastewater Treatment Construction grants. Volume II lists only State and local assistance awards.

Volume I consists of three sections. Section one is the awards listing with the first sort by States, then media such as air, water, pesticide, etc. Section two is organized on the basis of grant numbers. in ascending order. Following the grant number there is a brief description of project to be performed. This description was prepared by the grantees and contains approximately 250 words. This arrangement was first tried in our "Awards Register - 2nd Half of FY 1975" and found to be very useful both from the grants management aspect as well as fulfilling the public information requirements.

Section three contains the tabulation of grants by the fourteen sub-program areas identified by the Office of Research and Development in the publication "Report to Congress; Environmental Research Outlook, FY 1976 - 1980".

A few awards do not have a description and there may be ommissions, but due to the desire on our part to publish as soon as possible after the close of the fiscal year, we decided to follow this course of action rather than delaying the publication for further refinement. Any comments or criticisms should be mailed or phoned to Ellen O'Boyle or Julius Jay Sabo, Grants Information Office on (202) 755-2830.

NEW STATE PROJECT PRIORITY LIST PUBLISHED

The most recent "State Project Priority List" was delivered to the National Technical Information Services (NTIS) on January 12, 1976 for publication and sale.

State Project Priority Lists are expected to include projects planned for EPA funding thru September 1977. Lists from some States may include a lesser number of projects, or in a few cases, a project priority list may not have been available for inclusion in this publications. Information on the various aspects of the projects would be available only thru the respectibe State Water Pollution Control Agency or the EPA Regional Office, if the State has completed its processing of the application. A list of State Water Pollution Control Agencies is contained on page 35 of the EPA publiction "Federal Assistance Programs of the Environmental Protection Agency" listed below.

Addendums to the "Project Priority List" will be issued as these lists become available. To avoid delaying the publication of the material on hand, this Project Priority List will be issued through NTIS as part of the subscription service for the "Wastewater Treatment Construction Grants Data Base."

The "State Project Priority List" should be used in conjunction with the "WWT Data Base" since the making of an award on a project contained on this list is reflected in the monthly issue of the "WWT Data Base." Because of this and the necessity of issuing addendums to purchasers of the intial priority list, the list will not be sold separately.

At the present time, a one year subscription (12 monthly issues of the "WWT Data Base" and any "State Priority Lists" or addenda to the list that are issued) costs $100.00.

The "WWT Grants Data Base" publication is distributed to subscribers approximately six weeks after the close of the awards-listed month. It may be obtained through:
